McKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1894 William L. Wilson was dined and wine in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

The Ashland Sun puts it this way:—A. P. A.—"American Property Assured."

WHAT a pity Br'er MARSH hadn't patented his anti-election predictions. They were so unique that any infringement should be prosecuted.

THANK YOU, GROVER, for that Thanksgiving Proclamation. We now have very much to be thankful for. "Praise God from whom all blessings flow."

THE Hon. WILLIAM L. WILSON, President GROVER CLEVELAND's eminent Chairman of the Ways and Means Committee, can now return to England and tell the Brits what a blessing Free-trade is. Next to the demolition of the Democratic candidates in Mason county, the defeat of WILSON in West Virginia is the feature of the great Republican landslide.

It will take Br'er MAUS the rest of his natural life to recover from yesterday's shock to his nervous system.—Public Ledger.

Speaking from experience, are you? Say, you haven't recovered yet from the loss of that \$24.00 in '92, have you?—Bulletin.

Oh, yes; we'd forgotten all about that. But, since you have brought it up, do you expect to step into the \$24.00 job in 1896 that you didn't get in 1892?

"The sugar market has spiked the heaviest gun in the Republican battery. As the removal of the duty on raw sugar and the corresponding reduction in the duty on refined sugar under the McKinley Tarif Act told immediately and with full force upon the domestic sugar market, the Republicans can feel sure the reimposition of a duty on sugar by the present Tarif would operate as effectively in the opposite direction. They confidently expected that the price of sugar would advance to the full equivalent of the new duty. This was, on the face of matters, an entirely reasonable expectation, but the course of the sugar market has turned it to disappointment."—Boston Herald.

To which The Commercial Gazette pointedly replies that there is no gun spiked in the Republican battery—not one. The Republicans put sugar on the free list because it is not a home product to the extent of our consumption, and the Republicans gave a bounty to sugar producers in order to encourage the cultivation of the sugar cane and sugar beet, that we might speedily find all the sweets we want in our own soil. The removal of the duty on raw sugar by the Republicans reduced the price of it—there is no doubt of that—and the placing of a tax of forty-four per cent. of the value of it upon raw sugar is as certain to advance the price as any simple proposition in mathematics, such as two and two make four. The market is unsettled because the sugar dealers raked the world to find raw sugar to run before the article was taken from the free list. The excess in stock in the instance which prevents for the moment the natural advance. The Sugar Trust knew too much, and overreached themselves—a way trusts have.

EVERY old man HOLMAN, the great objector, is defeated in Indiana. It is a dreadfully bad year for Democrats.

THE Editor of THE LEDGER has so much to be thankful for that he has called upon an assistant. After thirty years of political warfare, with a Democratic majority of nearly 2,000 at the beginning, he has lived to see the Republican party victorious in Mason county. God be praised.

THE political situation was very well expressed recently by an old farmer who has been for many years a wheel-horse in the Democratic ranks in Jefferson county, says The Louisville Commercial. He approached an old-time Republican, with whom he had contested many political battles, and said: "Well, Sin, I am going to surprise you."

"How are you going to do that?" replied Sin.

"Why, this way," said the Democratic wheelhorse, "I am going to vote the whole Republican ticket, and," he said, "I don't want you to misunderstand me, Sin. I have always thought the Republican party was a set of d—d rascals, and I haven't changed my mind, but, after careful observation, I have come to the conclusion that the Democratic leaders are a set of d—d fools. I can watch a d—d rascal, but I never can watch what a d—d fool is going to do, and I am going to vote your ticket."

This is the practical way in which many sensible Democrats look at the present political situation. They have not given up their prejudices against the Republican party, but they have the utmost contempt for the business incapacity demonstrated by the Democratic leaders.

The reader of this paper will be pleased to learn that there is at least one drenched disease that science has been able to cure in all its stages, and that is Catarrh. Mr. H. Catarrh Cure is the only cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Mr. H. Catarrh Cure is taken internally, acting directly on the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution. THE SENATE

Now Claimed by the National Republican Leaders.

In Six New England States There is Apparently Only One Democrat

Elected to Congress, Fitzgerald, of Boston New York has five and Pennsylvania two, a total of eight Democrats Out of One Hundred Members.

NEW YORK, Nov. 9.—In no state and in no city have the Democrats been able to check the stampede of voters to the republican standard bearers. In rock-ribbed republican states like Pennsylvania enormous pluralities have been piled up, and in states like New York and New Jersey, which are usually classed in the democratic column, the republicans have made clean sweeps.

The latest estimates from Pennsylvania indicate that the plurality of Gen. Hastings will exceed 100,000. Morton has carried New York state by close to 150,000.

The congressional delegation, which stood 100 democratic to 10 republican in the Fifty-third congress, will be 29 republicans and 5 democrats in the Fifty-fourth congress.

The state assembly will stand 104 republicans to 24 democrats. The constitutional amendments framed by the late constitutional convention will be carried by big majorities. In the middle and western states democratic congressmen seem to have almost entirely disappeared.

In the six New England states there is apparently only one democrat elected to congress—Fitzgerald, of Boston. New York has five and Pennsylvania two, a total of eight democrats out of 100 members.

In Connecticut and Delaware big republican gains have been made. In New Jersey the state legislature, with the exception of four democrats, appears to have been captured by the republicans, and McPherson will be succeeded by a republican in the United States senate.

Senator Camden (dem.), of West Virginia, will also have a republican successor. The next senate, as well as the house, it is claimed, will be republican.

Texas Court Palace.
WACO, Tex., Nov. 9.—Elaborate ceremonies marked the formal opening Thursday of the Texas court palace. Distinguished visitors were present from all parts of the state, as well as a number from neighboring states and the north, and the day was observed as a general holiday. The Texas court palace, which was organized by the citizens of Waco, who subscribed \$250,000 for the erection of a magnificent building with a front of 400 feet and a depth of 100 feet, is a masterpiece of architecture. The building is a masterpiece of architecture. The building is a masterpiece of architecture.

Wilson Defeated by 9,000.
CHARLESTON, W. Va., Nov. 9.—Dayton's estimated majority Thursday morning was 2,000. This may be reduced somewhat by later returns. A full congressional delegation, together with the state legislature, is conceded to the republicans. The congressional majorities are estimated as follows: First district—H. B. Doremus, 4,000. Second district—A. G. Dayton, 2,000. Third district—J. H. Huling, 3,000. Fourth district—Warren Miller, 2,000.

Electric Light Plant Destroyed.
PORTLAND, Me., Nov. 9.—Fire early Thursday morning in the electric light works caused damage of less than \$1,000 to the building, but all the valuable machinery used for lighting the city was destroyed with water, so that the loss will be \$50,000, or perhaps more. The company gives out an estimate of the loss as about \$100,000. The armories, occupied by national guard companies in the same building, were destroyed.

Requested Cremation.
BLOOMINGTON, Ill., Nov. 8.—Miss Bettine Amos died Wednesday evening of cancer. She was a leader in Wabash society and for a year was assistant principal of the high school. It was her death bed request that her remains be cremated, and that her body, after a brief funeral service Thursday afternoon at 3, the body was taken to a crematory at Cincinnati.

Victor President's Nephew Married.
BLOOMINGTON, Ill., Nov. 8.—The marriage of Chas. Stevenson and Miss Lotie McLean, both leading young society people of Bloomington was solemnized at the home of the bride's mother, Mrs. Carmichael. The groom is the nephew of Vice President Stevenson, who was one of the guests. The wedding was attended by a distinguished company.

A Mayor at the Bar.
NEW ORLEANS, Nov. 9.—The impeachment trial of John Fitzpatrick, mayor of New Orleans, was resumed before Judge King Thursday. The defendant was represented by a formidable array of counsel and a number of important witnesses were in court who had been unable to attend when the case was called before.

Laying Torpedoes for Port Arthur.
LONDON, Nov. 9.—The Pall Mall Gazette prints a Yokohama dispatch saying that the Japanese are laying torpedoes at Port Arthur and in other waters completing the trap which they have been preparing for the Chinese.

Hill Refuses to Talk.
ALBANY, N. Y., Nov. 9.—Senator Hill was at his office early Thursday morning and had many callers. He appeared to be in good spirits, but refused to talk for publication.

Chicago Capitalist's Purchase.
BEPORD, Ind., Nov. 9.—John R. Walsh, a Chicago capitalist, is now in possession of the Illinois River railway and is about to build a line of railroads.

ARMOR PLANTS

Prized as the "Finest Anywhere in the World."

WASHINGTON, Nov. 9.—The two-armed armor plants at Bethlehem and Homestead, according to the annual report of Commodore Sampson, chief of naval ordnance, are the best equipped in the world, their developments in the past year by the addition of powerful forging presses and Harveyizing furnaces being of such character as to represent actual advances in the art.

These establishments have now practically completed existing armor contracts, and should applications for additional armored vessels be deferred beyond the next session of congress, these magnificent plants, which cost \$10,000,000, would be practically idle for more than a year, their organizations would be broken up and the skilled labor created much expense of time and money either lost or diverted. Under these circumstances Commodore Sampson believes that better terms can be obtained on new contracts at the present time than later.

EXPERIMENT STATIONS.

Plans to be Discussed for Still Better Results by Agricultural Experts.

WASHINGTON, Nov. 9.—The work of the agricultural experiment stations in this country will be thoroughly reviewed and plans discussed at the forthcoming eighth annual convention of the association of American colleges and experiment stations. The meeting will begin in this city next Tuesday and close Friday and a large gathering of agricultural experts is expected. Sessions will be held daily. Addresses will be made by Assistant Secretary of Agriculture Dabney, Commissioner of Education Harris and by various experts in agricultural matters. Reports will be received from committees and section chairmen and all sections will meet for organization and preliminary business. Gen. Stephen D. Lee, president of the Mississippi Agricultural and Mechanical college and president of the association, will deliver his annual address in the evening.

NOT TO BE REBUILT.

Brooklyn Tabernacle No More—Dr. Talmage's Plans.

BROOKLYN, N. Y., Nov. 9.—Leonard Moody, president of the Brooklyn Tabernacle board of trustees, called on Dr. Talmage and discussed with him the future of the tabernacle congregation and of Dr. Talmage's pastorate. To a reporter Mr. Moody said: "I strongly advised Dr. Talmage against rebuilding the tabernacle. I told him that in the face of the present hard times it would be impossible if not impossible to raise the necessary money, and he agreed with me. I do not know whether a building will be rented for Dr. Talmage in New York City. I do not know whether he will preach here at all. I think he will make Brooklyn his home, though I understand he has received calls from other cities. He has not made up his mind yet just what to do. He will await developments before deciding on any course of action."

The Czar's Boy on Shipboard.
ST. PETERSBURG, Nov. 9.—The czar and carina, through the court minister, Count Vorontsoff-Dachkoff, have thanked the Jewish community for their message of condolence upon the death of the czar and for the loyal and patriotic sentiments thereupon expressed by the Jews. The body of the czar was removed at 8 o'clock Thursday morning and escorted with great ceremony on board the Russian gunboat Panyat Moravia for transportation to Sebastopol.

Gov. Waite Retired.
DENVER, Col., Nov. 9.—Molntyre's plurality for governor is estimated at 10,000 on the basis of the returns so far received from all over the state. In Arapahoe county his majority over Waite is 15,196, with seven precincts missing. Waite ran 2,000 votes behind his ticket. The populists claim the legislature will be a tie on joint ballot, but the republicans figure on a majority of 10.

They Will Join.
RUSSELLVILLE, Ind., Nov. 9.—The election of Watson over Holman is officially announced by the committee. Congratulations are poured in on Watson from republicans in all parts of the United States. Rush county gives him 751 plurality, a republican gain of 400. Preparations are being made for a grand ratification.

Washington State Election.
SEATTLE, Wash., Nov. 9.—Enough has been learned to state that the next legislature will be republican, with a probable majority of 30 on joint ballot. The republican congressional ticket is elected as well as supreme court judges. The populist state ticket will pull a heavier vote than the democratic.

CHARLES B. RYAN.

A Maysville Boy Who Has Carried His Own Way.

One of the leading passenger agents of Cincinnati is Charles B. Ryan, the Assistant General Passenger Agent of the Chesapeake and Ohio Railroad.

Several years ago the C. and O. was comparatively unheard of, and was considered anything but a competitor to other Eastern lines, but in later years it has sprung into prominence as one of the best and most perfect railroads in every particular, and now it gives them all a strong fight for the business.

This change has, with the excellent service of the road, been brought about by "Charlie" Ryan, through his unique manner of advertising, and it is claimed by well informed railroad officials that the F. V. Y. (Fast Flying Virginia) train on the C. and O. is one of the best known passenger trains in the country.

Mr. Ryan is a Kentuckian. He was born at Maysville, May 16th, 1856, and entered the railway world at Richmond, Va., in 1880, as a freight clerk for the Atlantic Coast Line, but a year later accepted service with the Chesapeake and Ohio at Richmond as ticket supply clerk in the passenger department and has "done time" in every branch of the department of the C. and O. road, working his way up step by step, until now at the age of 38, he finds himself the Assistant General Passenger Agent of the entire system, to which position he was appointed April 1st, 1890.

Mr. Ryan is considered one of the best advertisers among the passenger men's fraternity, and is regarded by his superiors as a man of worth and ability and one whom it would be a difficult task to replace. He is one of the clearest of gentlemen, kind hearted, generous and of a lovely disposition, and his phenomenal success recalls the old adage of Wirt, "There is no excellence without great labor." The service of the C. and O. is just excellence and unsurpassed.

DREW ON THE SULTAN.

And His Draft Went Through Without a Question.

A large operator and speculator of St. Louis, whose account with one friendly bank had often been temporarily overdrawn, wanted \$10,000 once for a certain deal; his balance in bank at that time being less than \$100.

The Cashier suggested that he should draw upon some party not too near St. Louis. Smith said he did not know whom to draw upon.

"Oh, anyone," said the obliging Cashier, "as long as the party is far enough away—that will give you time to turn around."

Smith drew at sight for \$10,000 on the Sultan of Turkey. The draft was duly forwarded by the bank, reaching New York, whence it was sent to a London correspondent.

It then came into the hands of the Rothschilds, who forwarded it to their Constantinople branch, where it was duly presented for payment to the Sultan's chamberlain, the latter bringing it to His Highness.

"Who is this John Smith?" said the Sultan.

"Don't know," replied the chamberlain.

"Do we owe him anything?"

"No," replied the other.

"Then I'll not pay it," replied His Highness.

"One moment, if I might advise," said the astute cashier, "this draft comes through the Rothschilds, with whom you are seeking a \$2,000,000 loan. Would it be safe, under the circumstances, to dishonor it?"

"Pay it!" said the Sultan, and it was paid, and no one was more astonished than John Smith of St. Louis and the quick-witted Cashier.

W. B. Wylie, Superintendent of the Bowling Green City Schools and one of the most prominent educators in the state, died at Bowling Green after a lingering illness. He was prominent in the Masonic Order and was Past Eminent Commander of the local Commandery.

He organized the present system of graded schools and was universally popular. His remains will be shipped to Ripley, O., his former home.
